

Identification

Records identified through
database searching
n = 271
Web of Science 115; Scopus 156

Duplicate records removed
before screening
(cross-database): **n = 101**

Unique database records
after duplicate removal
n = 170

Reports identified through
other methods
(prior set + snowballing)
n = 134

Screening

Candidate records / reports
(databases + other methods)
n = 304

Duplicate reports removed
(hash / DOI / title)
n = 173

Reports assessed
for eligibility
n = 131

Reports excluded: **n = 23**
Surveys / methodology: 13
Pre-2021 anchors: 3
arXiv-only record: 1
Out of scope: 6

Included

Studies included
in the quantitative corpus
n = 108
peer-reviewed; 2021-2026
